**Subject:** Inquiry About Web Developer Role and Interview Procedure.

Dear **ABC Limited**,

I hope this message finds you well. I recently came across the job posting for a Web Developer position on ABC Limited's *Facebook page* and am very interested in applying for this role. Could you please confirm if this position is for a Junior Web Developer or a Senior Web Developer? Additionally, If I am shortlisted, could you please share the interview process, schedule, and the next steps? Also, if I am selected for an interview, I would like to know whether it will be held in person at your office or if there is an option to attend remotely.

I would greatly appreciate your guidance on these points to help me proceed with my application. Thank you for your time and assistance.

Best regards,

**Ashraful Hossain**

Junior web developer (FNF Network )
